# WHO WE ARE

GREECE. NATURE. RESEARCH

## From homeopathic remedies to natural products

Korres Natural Products is a Greek company with roots in the first Homeopathic Pharmacy of Athens. The first Korres product was an aromatic herbal syrup with honey and aniseed, a recipe inspired by "rakomelon", a warming spirit-with-honey concoction, which George Korres' grandfather used to favor in his hometown on the island of Naxos. The company today offers more than 500 skin and hair care products, at leading department stores and 20 stand alone stores, in 28 countries around the world.

## Our values

Korres natural products are based on 4 fundamental principles: · Naturally derived, top quality active ingredients. · Clinically tested effectiveness with no inflated promises. ·Pleasing to the senses. ·Reasonably priced to enable every-day use.

## The syntheses

There are four types of active herbal ingredients that we use in our syntheses: · Unique herbs of the Greek flora, known for their traditional use: Olive oil, Thymus Honey, Basil, Camomile, Fennel, Sage, Linden, Rosemary, Mastiha ·Medicinal herbs (our pharmacy heritage): Aloe vera, St John's Wort, Evening Primrose, Rosa Moschata, Thyme, Calendula, Echinacea, Gingo biloba, Ginseng, Hamamelis · New advanced herbal ingredients, the latest outcome of Science in Cosmetology: Hibiscus. Argan, Andiroba, Wild Mango, Mourera fluviatilis, Imperata Cylindrica, Sunflower · Food ingredients, incorporated in their natural form into the formulas in order to maintain their properties: real edible Yoghurt and thyme Honey. At the same time we are committed to continuously developing the base of our products using technology and research in more environment friendly and skin-compatible ways. Thus, we broadly avoid the use of specific synthetic compounds (like petroleum derived mineral oils, silicone, propylene glycol, ethanolamines, ammonia etc), replacing them with naturally derived ingredients, such as vegetable oils and aminoacids, that have nourishing properties and are friendly to the skin.

## Our cooperations

In cooperation with the sector of Pharmacognosy (Pharmaceutics department, University of Athens), we participate in industrial research development programs, with the object of utilizing herbs of the Greek flora. At the same time, in cooperation with the Chios Mastiha Growers Association we have developed a special product line, based on the Mastiha, the invaluable and unique resin of Chios. Moreover, in cooperation with the Cooperative de Safran, we have undertaken the responsibility to create an extensive range of products with Krokos Kozanis, the highest existing quality of Saffron.

TAVELIS SPA CONCEPT SERVICES

## TAVELIS SPA CONCEPT SERVICES

### 5 DIMENSIONS FOR A COMPREHENSIVE AND SUCCESSFUL SPA CONCEPT

#### 1. SPA CONSULTANCY SERVICES

It is widely acknowledged that the spa industry is gaining momentum and spa holidays, retreats and destinations are increasingly in demand, this trend is driven by well-informed clients seeking not just any spa, but one that offers a unique, memorable and lasting experience.

That is why starting right is the first step towards success, and why our consultancy services can make all the difference. We know the spa industry inside out and at every stage, and can therefore guide you and offer you ongoing support to launch, operate smoothly, and develop a sustainable, healthy and growing business.

#### 2. SPA CONCEPT, DESIGN & PHILOSOPHY

Determining and defining a new spa's concept, design and philosophy is the cornerstone of a successful spa that differentiates itself from others. After developing the underlying concept and philosophy in cooperation with the client, we then liaise with the team of professionals who will be designing the facility. With our guidance, architects and interior designers will create an environment that is aligned with the agreed concept and philosophy, to optimize guests' spa journey and experience.

At the same time, we will offer consultation on the choice of finishing materials to combine aesthetics and functionality, and set the design standards of furniture and fittings. During the construction period we will offer technical assistance and manage the procurement of the required and agreed specialized spa equipment.

#### 3. SPA MANAGEMENT SERVICES

Our team includes spa professionals with extensive first-hand and active experience in the management of contemporary, guest-centered, results-oriented spa and wellness centers.

#### 4. SPA OPERATIONAL SUPPORT

Once the spa is complete and ready for business, our operational support covers the day-to-day operation and management of the spa on behalf of our client.

#### 5. SPA STAFF & MANAGEMENT RECRUITMENT

We realize that every spa is – and should be – different, targeting and satisfying its specific clientele, while offering them the experience and value they appreciate. To achieve this, the entire staff has to be trained accordingly, to develop the culture, approach and consistent standards that match the spa's individual concept and philosophy.

KORRES SPA TREATMENTS

## The beginning

Since the fourth century BC, Greeks have been studying plants and producing natural clean treatments for the most common skin problems. In the oldest homeopathic pharmacy in Greece, KORRES was born, developed by George a pharmacist and Lana a chemical engineer. Using the ancient skin-superfood like yogurt, saffron, pomegranate, rose, grape and pine.

They began developing smart natural beauty products with clinical efficacy.

Knowing how nature works inside as well as outside on our skin. The key to powerful results is combining the best of nature and science and using innovations inspired by Nobel Prize winning research.

We are attuned with nature and need to allow natural's ingredients to support our skin's health and beauty.
